

STRETCH MARKS

Cream with repairing action

It stimulates cell regeneration and promotes a recompacting action, preventing the formation of new stretch marks. Improves the tone and elasticity of the skin; ideal for helping to improve the appearance of stretch marks created by pregnancy, breastfeeding, obesity, sudden weight loss.

PROBLEMS

- Stretch marks
- Non-compact skin tissue

EFFECTS

- Elastic and compact skin

Tube 200 ml

Cod. Art.: ARO202103

MAIN ACTIVE INGREDIENTS

VANISTRYL™

Innovative marine ingredient able to effectively counteract the various mechanisms involved in the formation of stretch marks: it protects the connective tissue from degradation and helps the reconstruction of the extracellular matrix

with an elasticizing and repairing effect. Clinically tested for the ability to reduce stretch marks.

COLLAGEN

Fibrous protein and one of the major components of the dermis. Applied to the skin it gives hydration and softness.

ORGANIC SILICONE

Water-soluble derivative of silicone, it is ideal for promoting tissue regeneration and toning the skin. Clinical tests show its effectiveness on stretch marks.

INSTRUCTIONS

Apply on the areas to be treated and massage until completely absorbed. External use.
