MAIN ACTIVE INGREDIENTS

AFRICAN KIGELIA EXTRACT

African plant rich in flavonoids and saponosides that promote elasticity, tone and volume to the tissue.

ORGANIC SILICONE

Water-soluble derivative of silicone, it is ideal for promoting tissue regeneration and toning the skin. Clinical tests show its effectiveness on stretch marks.

MORINGA BUTTER

Vegetable emollient that nourishes and strengthens the skin barrier. Clinical studies show its moisturizing action superior to that of shea butter.

INSTRUCTIONS

Apply a small amount of gel on the breast and décolleté and massage until completely absorbed. External use.
