AROSHA CREATES EYE CONTOUR DUO PACK

EYE MICROEMULSION with exclusive PEPTIDE COMPLEX with BIORETINOL for the day

During the day the **Eye Microemulsion** guarantees a relaxed and luminous look, minimizing wrinkles and expression lines and reducing bags and dark circles.

EYE SERUM with exclusive PEPTIDE COMPLEX with HYALURONIC ACID for the night

During the night's rest the **Eye Serum** acts with an intense action anti-fatigue, counteracting skin relaxation, protecting micro capillary integrity and reducing the responsible blood deposits of dark bags and dark circles.

FREE OF: SILICONES, PARAFFINS, MICROPLASTICS, PARABENS, ALLERGENS

Complete the treatment with the application of biocellulose eye patches enriched with the exclusive **PEPTITE COMPLEX**

HOW TO USE:

EYE MICROEMULSION

In the morning, massage a small amount on the lower and upper eye area with gentle movements from the inside out.

Avoid contact with eyes, in case rinse immediately. Stop using the products if the skin appears irritated. Avoid applying it on damaged or inflamed skin. With the application of Eye Microemulsion, following stimulation of the skin microcirculation, you may experience a momentary sensation of light warm.

EYE PATCH

Use once a week, in the evening, after cleansing the face and before applying the serum. Once the package has been opened, use the product immediately. Remove the protective film from both sides and apply the biocellulose patch around the eye area.

Apply light pressure with your fingers to facilitate the correct adhesion of the patch and leave for 15-20 minutes. Massage any serum residues until completely absorbed.

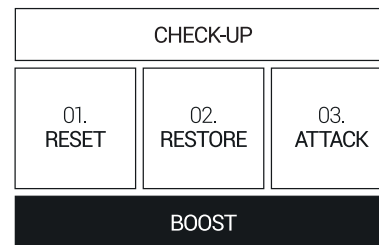

EYE SERUM

In the evening massage a small amount on the lower and upper eye area with gentle movements from the inside out. Avoid contact with eyes, in case rinse immediately. Stop using the products if the skin appears irritated.

Avoid applying it on damaged or inflamed skin. With the application of Eye Serum, following stimulation of the skin microcirculation, you may experience a momentary sensation of light warm.
