

A REVOLUTIONARY TECHNOLOGY FABRIC

The science behind Dermofibra® technology lies in the combination of two different yarns, respectively made of polyester and **minerals** (silicon, titanium, aluminum, magnesium and zinc), and polyamide.

Bio-infrared action improves skin appearance, providing hydration and reducing orange peel skin, while the inorganic compounds improve microcirculation and the drainage of excess liquids. The result is an easy care textile that gently wraps your body offering an **instant slimming effect**.

-  Silicon
-  Titanium
-  Aluminium
-  Magnesium
-  Zinc

.500 PRESSOPANTS

Leggings in Bio Infrared Dermofibra®

The innovative Dermofibra® Bio-Infrared yarn contained in the Arosha By BeGood Pressopants has been specially developed to stimulate circulation, drain excess fluids, improve skin tone and eliminate cellulite in a simple way.

- PUSH UP EFFECT
- IMPROVEMENT OF MICROCIRCULATION
- PRESSOMASSAGE EFFECT

PERFECT MATCH

.501 NIO DRAIN

Gel cream formulated with specific active ingredients with draining and vasotonic properties that help improve microcirculation and promote the drainage of excess fluids. Thanks to NIOCONTROL™ technology, an innovative delivery system based on Niosomes, it makes the functional principles contained better and gradually available, for an optimal result. An ultra-light and comfortable texture, easy to apply and specially designed to be absorbed quickly without greasing.

.504 LIPOLYTIC

Cosmetic treatment with DRONE™ technology, ideal to treat localized adiposity and reshape belly and hips. The presence of an innovative delivery system of active ingredients, the COSMETIC DRONE™, highly selective and specific, assures a focused and effective action in counteracting the blemishes caused by localized adiposity.

.503 BODYSLIM

Body in Bio-Infrared Dermofibra®

Bodysuit in Dermofibra® Bio-Infrared yarn with a slimming and remodelling effect. It helps to tone up the belly area stimulating the microcirculation and giving an immediate reshaping effect. The innovative Dermofibra® yarn has been developed to stimulate microcirculation, enhance skin hydration and help contracted muscle relaxation.

TONE UP EFFECT

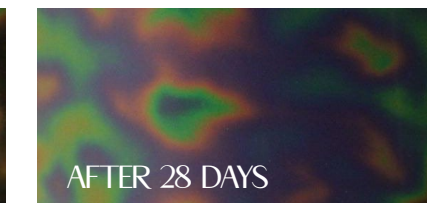

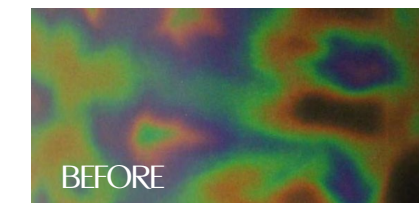

RESULTS AFTER 28 DAYS

To validate the efficacy of the Dermofibra® Bio-Infrared yarn, the material undergo clinical testing conducted by an independent ISO 9001-certified laboratory and supervised by a team of dermatologists, biologists and cosmetic experts. To eliminate possible placebo effects, 20 volunteers participate in a double-blind clinical trial wearing Dermofibra® leggings for 8 hours a day over a 28-day period.

SILHOUETTE RESHAPING	DAYS	WAIST	HIPS	THIGHS
MAXIMUM circumference reduction	28	-2,7 cm	-1,9 cm	-1,1 cm

IMPROVEMENT OF SUBCUTANEOUS MICROCIRCULATION

At first, the contact thermographic plate with liquid crystal displays spots with clear edges, encircled by cooler areas. Merely 10 days later, we observe a noticeable uniformity in temperature, signaling an enhancement in cutaneous microcirculation.
