# .200 NIO DRAIN+

It is an intensive draining high-tech treatment based on Niosomic nanotechnology. The best beauty strategy for a deeply drained and balanced body.

In the Arosha method the **.200 NIO DRAIN** is part of the **RESTORE** phase, which is essential to rebalance the skin barrier and restore the correct permeability of the tissues, before proceeding to the next attack phase.

Discover our method

## TECHNOLOGICAL INNOVATION AND ACTIVE INGREDIENTS

### NIOCONTROL™

#### WHAT IS IT

It is an innovative delivery system based on Niosomes that allows the functional principles contained in the products to be better available and gradually released.

#### HOW IT WORKS

In NIOCONTROL™ the natural active ingredients are encapsulated in small elastic vesicles (Niosomes). These are special "transporters" capable of deforming and inserting themselves in the intercoreocyte spaces, then resuming their original shape to release the active ingredients in the surrounding environment, increasing their bioavailability and ensuring maximum effectiveness..

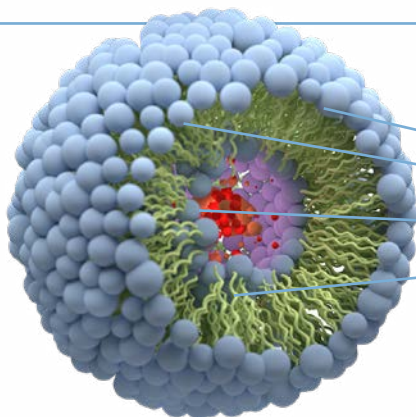

Niosomes are also defined supermolecules, or membrane-mimetic systems, since their structure simulates that of the cell membrane (that is a "bilayer" system, consisting of the combination of two layers formed by phospholipids) allowing to store the functional principles and convey them more deeply into the dermis, gradually yielding them.

The Niosomes used in .200 NIO DRAIN carry nr. 4 active ingredients: Troxerutin, Escin, Caffeine and Coleus Forskolhii. Troxerutin, thanks to its extraordinary anti-inflammatory, trophic and antioxidant action on the venous endothelium, promotes capillary elasticity by improving skin microcirculation. Escin has an anti-edema action, that is, it is able to reduce the inflammatory response associated with the stagnation of liquids. Caffeine and Coleus, on the other hand, activate lipolysis in the adipocytes, reducing the thickness of the adipose tissue.

#### PLUS

1. Carries the active ingredients deeper into the dermis.
2. Gradually release the functionals active present.
3. Prolongs the benefits of the functionals active for several hours, achieving better results.

### NIOSOMAL VESICLE

#### Functional active ingredients:

- Troxerutin
- Escin
- Caffeine
- Coleus Forskolhii

## GLYCACID ECO

### WHAT IS IT

Biotechnological active consisting of mucopolysaccharide precursors with a high concentration of the basic monomer of Hyaluronic Acid. Its small molecular size promotes intradermal penetration, constituting a valuable source of raw material for the formation of medium molecular weight Hyaluronic Acid, particularly suitable for water retention in the connective tissue and therefore responsible for deep hydration.

### PLUS

1. Increases connective permeability
2. Promotes the drainage of interstitial fluids
3. Induces a deep hydration of the connective tissue
4. Promotes the penetration of hydrophilic active ingredients

## NATURAL EXTRACTS

Natural extracts of BIRCH, CENTELLA ASIATICA, HORSE CHESTNUT and ESCIN work in synergy with SHEA BUTTER, ALMOND OIL and RICE increasing both the resistance and elasticity of the capillaries, with a reduction in their permeability, and an anti-inflammatory, restructuring, antioxidant activity for an improvement in the drainage of tissue fluids and a more toned and rebalanced skin.

## MENTHYL LACTATE

Derivative of menthol esterified with lactic acid, it stimulates the cold receptors present on the skin, giving a pleasant sensation of freshness without changing the temperature of the epidermis. Compared to menthol, it has a milder but longer lasting action. Also, being lighter, it is less irritating. It is therefore also indicated on sensitive, irritated skin or with delicate capillaries.

## MAGNESIUM SULFATE AND MAGNESIUM CHLORIDE

They promote an intense draining action, counteracting water retention. In addition, they give tone and remineralize the skin and tissues.

## TREHALOSE

Disaccharide, composed of two glucose molecules, naturally present in many living organisms such as plants, fungi, bacteria and invertebrates. It allows the skin to retain moisture ensuring long lasting hydration. It has an exceptional antioxidant power, protects the skin from the most common pollutants and slows down the aging process.

## ALLANTOINA

Molecule capable of promoting cell regeneration for softer and healthier-looking skin. It also prevents the loss of transepidermal moisture, maintaining skin hydration. It is an excellent calming and soothing agent.

## VITAMIN E

One of the most powerful antioxidants capable of effectively counteracting the action of free radicals. It restores the skin's ability to retain water, fighting dehydration, and repairs damage to the collagen and elastin fibers, restoring firmness and elasticity to the skin.

DELIVERY WITH NIOSOMAL TECHNOLOGY

# PROFESSIONAL TREATMENT

RESTORE / BODY

## .201 NIO ACTIVE

Activates microcirculation and promotes the absorption of functional substances

### ACTIVE PRINCIPLES

NIOCONTROL™, Troxerutin, precursors of Hyaluronic Acid

**Nr. 4 - Disposable sachet 50 ml**

## .202 NIO SYNERGY

Helps eliminate waste and excess fluids

### ACTIVE PRINCIPLES

Escin, Horse Chestnut Extracts, Centella Asiatica and Birch

**Nr. 4 - 5 ml vial**

## .203 NIO AQUADRAIN

Helps to drain tissues deeply

### ACTIVE PRINCIPLES

NIOCONTROL™, Escin, Extracts of Birch and Gotu Kola, Magnesium Salts

**Nr. 4 - 2 Disposable bandages 250 ml (10 cm X 10 m / each)**

## COMPLETE THE TREATMENT

## .204 NIO DRAIN PLUS

It stimulates microcirculation and counteracts water retention

### ACTIVE PRINCIPLES

NIOCONTROL™, Horse Chestnut and Centella asiatica extracts, Aescin, Mentyl lactate, Allantoin, Shea Butter

**Airless 500 ml**

Not included inside the kit

# HOME ROUTINE

BOOST / BODY

## .501 NIO DRAIN

It stimulates microcirculation and counteracts water retention

### ACTIVE PRINCIPLES

NIOCONTROL™, Centella Asiatica and Horse Chestnut Extracts, Aescin, Trehalose, Vitamin E, Almond and Rice Oil.

**Tube 200ml**

## .520 NIO DRAIN PANTS

Counteract stagnation of liquids, promote a remineralizing action

### ACTIVE PRINCIPLES

NIOCONTROL™, Salts of the Dead Sea, Escin, Centella asiatica extract, Birch extract.

**Nr. 1 pants + nr. 1 refill + nr. 2 pantacartene**

Not included inside the kit

# PROFESSIONAL TREATMENT

## STEP 1

PREPARATION

Mechanical peeling with  
AROSHA BRUSH

## STEP 2

MICROCIRCULATION  
AND LYMPHATIC SYSTEM  
ACTIVATION

NIO ACTIVE + NIO SYNERGY

Maximize the effectiveness  
of the products by performing  
the specific DRAIN PLUS  
MASSAGE, as per tutorial

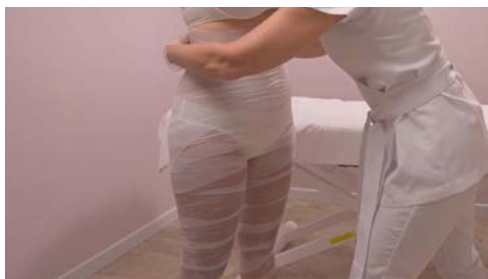

## STEP 3

SHOCK ACTION

NIO AQUADRAIN

To enhance the results,  
combine the treatment  
with technologies as  
pressomassage and/or  
infrared or ultrasound plates

## STEP 4

FINAL MASSAGE

NIO DRAIN PLUS

# STRENGTHS

## NIOCONTROL™

Innovative delivery system based on Niosomes that makes the functional active contained in the products better and gradually available

## PROLONGED ACTION

Thanks to the use of NIOCONTROL™ technology, the functional active will work several hours even after application, achieving better results

## IMPROVED EFFECTIVENESS

NIOCONTROL™ technology improves skin penetration of functional active, increasing their bioavailability for maximum effectiveness

## IMMEDIATE RESULTS

Visible and measurable from the first treatment in the cabin

**HAND  
FREE**

Time optimization: few  
fundamental steps for  
scientifically proven results

**READY TO USE**

The kit contains all the  
products in the quantity  
necessary to immediately  
perform the complete  
treatment

**DRAIN  
PLUS  
MASSAGE**

Exclusive professional  
maneuvers designed  
by Arosha to activate  
microcirculation and drain  
liquids from interstitial  
spaces

**COMBINABLE  
WITH  
TECHNOLOGIES**

Pressomassage and/or  
infrared and ultrasound  
plates to maximize the  
positive effects of the  
treatment
