

# ACTIVE CHARGE AGE RESOLUTION

## Concentrated Serum

A treatment with a high concentration of active ingredients that – thanks to the Transfer Boost – imbues the skin with active ingredients able to counteract the ageing processes caused by free radicals, sun exposure and physiological processes.

### PROBLEMS

- Deep wrinkles
- Widespread roughness
- Skin damaged by UV rays

### EFFECTS

- Reduction of wrinkles
- General tissue improvement

2.5 ml ampoule

Product included in the kit and not sold separately

## MAIN ACTIVE INGREDIENTS

### RETINYL PALMITATE

An antioxidant derived from vitamin A, it stimulates collagen production and slows down ageing of the skin.

### SOY EXTRACT

Contains antioxidant and anti-ageing properties. Soy isoflavones have an oes-

trogen-like action that can help maintain skin integrity, prevent wrinkles and stimulate the production of hyaluronic acid. The antioxidant effects of soy isoflavones are effective in protecting the skin against photoinduced damage, both preventing ageing and reducing skin spots.

### CHONDRUS CRISPUS EXTRACT

A red alga rich in carrageen whose film-forming properties exert an action that is both protective against environmental stresses and moisturising. Prevents water loss and helps to convey the ingredients with which it is combined.
