MAIN ACTIVE INGREDIENTS

ORGANIC BIOCELLULOSE

Biocellulose forms the base of this innovative mask which, in addition to perfectly adapting and adhering to the skin, has technologically-distinctive properties: **1.** Deeply transports the active ingredients with which it is imbued; **2.** Removes impurities from the skin.

RETINYL PALMITATE

An antioxidant derived from vitamin A,

it stimulates collagen production and slows down ageing of the skin.

SOY EXTRACT

Contains antioxidant and anti-ageing properties. Soy isoflavones have an oestrogen-like action that can help maintain skin integrity, prevent wrinkles and stimulate the production of hyaluronic acid. The antioxidant effects of soy isoflavones are effective in protecting the skin

against photoinduced damage, both preventing ageing and reducing skin spots.

CHONDRUS CRISPUS EXTRACT

A red alga rich in carrageen whose film-forming properties exert an action that is both protective against environmental stresses and moisturising. Prevents water loss and helps to convey the ingredients with which it is combined

INSTRUCTIONS

The biocellulose mask is between 2 films. Once the mask is removed from the sachet, remove the outer film, apply the mask to the face then remove the second film. Ensure the mask perfectly adheres to the entire face, including the eyes, and leave on for 20-30 minutes. Remove the mask and gently dab with the palm of the hands to facilitate the absorption of any residual serum. Available in the Repair & Rejuvenating Kit. No alcohol. No perfumes.
