8 ml bottle with dropper

Product included in the kit and not sold separately

MAIN ACTIVE INGREDIENTS

ARTICHOKE EXTRACT

Used in traditional medicine for its detoxifying and protective properties. Rich in vitamins, it also has hydrating action.

GINKGO BILOBA EXTRACT

A powerful antioxidant and soothing extract from the Ginkgo plant. The leaves of this plant are rich in flavonoids and terpenoids, with powerful antioxidant prop-

erties useful for protecting the skin. Considering that one of the factors of ageing is environmental stress, Ginkgo Biloba provides a necessary protective function in reducing the appearance of wrinkles.

CENTELLA ASIATICA EXTRACT

An antioxidant able to stimulate fibroblast activity and create new collagen fibres. Vasoprotective and venotonic.

HORSETAIL EXTRACT

Rich in flavonoids and potassium salts, it has a detoxifying action.

CAMELLIA SINENSIS EXTRACT

Obtained from the leaves, this extract is rich in antioxidant substances (catechins, polyphenols, flavonoids, tannins...). It also has a purifying and astringent action.

INSTRUCTIONS

See the directions. Available in the Urban Defence Kit.
