

BOOST / FACE

PREMIUM BIOCELLULOSE SKINCARE SOLUTIONS

Arosha face offer is characterizes by the most advanced technology for face mask: BIOCELLULOSE.

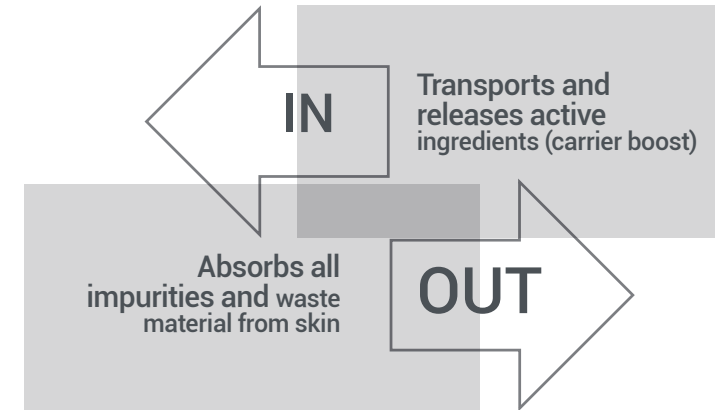

BIOCELLULOSE IS A NATURAL FIBER.

A premium quality material, highly effective that infused with powerful active ingredients make you obtain the best benefits for your skin.

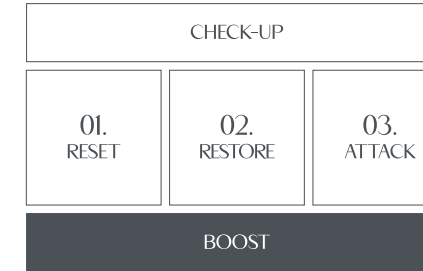

PLUS POINTS

In addition to adapting and adhering perfectly to the skin, it has technologically distinctive properties:

1. deeply conveys the active ingredients with which it is pre-soaked;
2. removes impurities from the skin.

Efficacy tested with clinical studies in collaboration with the University of Pavia.

AROSHA
AESTHETIC SCIENCE

THE BENEFITS OF BIOCELLULOSE

GOOD FOR THE SKIN

Pure, natural & hypo-allergenic, biocellulose is suitable even for very sensitive skin!

EFFICIENT INGREDIENT PENETRATION

Biocellulose allows a deeper penetration of the active ingredients in the skin layer

GREAT ADHESION

It fits perfectly, like a second skin! You can literally do everything while you're wearing it!

ENVIRONMENTALLY FRIENDLY

Biocellulose masks are completely biodegradable

IMMEDIATELY VISIBLE RESULTS

The skin looks better just right after the first application

FACE MASKS

AROSHA
AESTHETIC SCIENCE

Line with high nourishing and moisturizing power able to provide a soothing and restorative effect to the skin. The rich pool of active ingredients and the innovative "Probiotic-Like" favor the reconstruction of the damaged skin barrier and the restoration of the optimal conditions of the hydrolipidic film, essential to give the skin everything it needs. Complete the treatment with the application of the specific daily cream.

Treatment with important detoxifying, oxygenating and purifying properties. Thanks to a selected pool of active ingredients, the skin is protected from the daily aggressions of polluting agents, slowing down the oxidative processes responsible for skin aging. Complete the treatment with the application of the specific daily cream.

Ideal solution to give the skin an immediate compact and smooth appearance. The active ingredients contained in the Lifting & Contouring products have lifting and anti-ageing properties and were selected to instantly stimulate skin tone, firmness and radiance, counteracting the signs of premature aging. Complete the treatment with the application of the specific daily cream.

Exclusive anti-aging treatment rich in active ingredients specially designed to treat the deepest wrinkles and reduce their reappearance. Their properties help to counteract the causes of the natural aging process of the skin, promoting cell regeneration and the stimulation of new collagen and elastin. Complete the treatment with the application of the specific daily cream.
