

## .332 LIPOLYSE

### Intensive liporeducing serum

Lipo-reducing treatment specifically developed to counteract skin blemishes due to the more advanced stages of cellulite. Based on Caffeine, Carnitine and Phosphatidylcholine which, thanks to their high lipolytic power, stimulate the mobilization of fats in the adipose tissue, favor the reduction of adipocytes and counteract the formation of new adipose cells.

#### PROBLEMS

- Fibrous cellulite
- Sclerotic cellulite

#### EFFECTS

- Slimming
- Lipo-reducing
- Volume reduction

Single-dose sachet 40 ml

Product included in the kit and not sold individually

## MAIN ACTIVE INGREDIENTS

### CAFFEINE

One of the most effective active ingredients in body treatments thanks to its lipolytic action. It is in fact capable of promoting the degradation of the triglycerides present in the adipocytes, causing

their volume to be reduced. It also has strong antioxidant properties.

### CARNITINE

Naturally contained in the cells of our body, this substance intervenes in the cellular processes of energy production,

promoting the burning of fat.

### PHOSPHATIDYLCHOLINE

It is one of the most abundant phospholipids in tissues. Thanks to its properties it is able to dissolve fat by reducing the size of adipocytes.

## INSTRUCTIONS

Massage the entire contents of the sachet on the areas to be treated until completely absorbed. See application protocol. Wash hands thoroughly after use and avoid contact with eyes and mucous membranes. Avoid contact with non-intact skin. Rinse immediately in case of irritation. External use.

PROFESSIONAL USE.
