

RESTORE / FACE

REDISCOVER THE ART OF HYDRATING YOUR SKIN

Tradition and innovation meet
for a revitalized and protected face

Drawing inspiration from the art of Saho, the ancient Japanese beauty ritual, the new .250 RE-HYDRA treatment is born, designed for the second phase of the Arosha method. Feather-light and ethereal textures skillfully combine to create a series of layers that hydrate and protect the skin, making it visibly revitalized, radiant, and elastic.
