

ATTACK / FACE

# 350 X-AGE SUPREME

**Embrace timeless beauty**

Visibly reduce wrinkles and expression lines while delivering deep nourishment to your skin.

**AROSHA**  
AESTHETIC SCIENCE

# .350 X-AGE SUPREME

Included in the third and final phase ATTACK of the Arossha method, .350 X-AGE SUPREME is a professional treatment specifically developed to address imperfections associated with the most advanced stages of aging.

The kit combines two synergistic products for an intensive restructuring and regenerating effect. It works by improving skin texture and promoting cellular renewal. It provides deep nourishment and long-lasting hydration, visibly reducing wrinkles and expression lines.

## SKIN AGING AND INFLAMMAGING

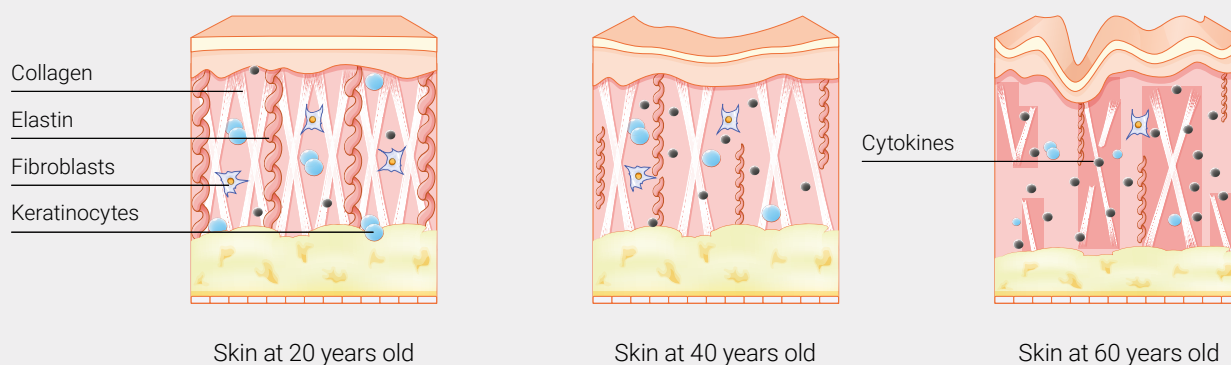

Skin aging is a complex and multifactorial process that involves various biological and physiological mechanisms, particularly **chronic inflammation**, which makes the skin less elastic, more wrinkled, and more fragile.

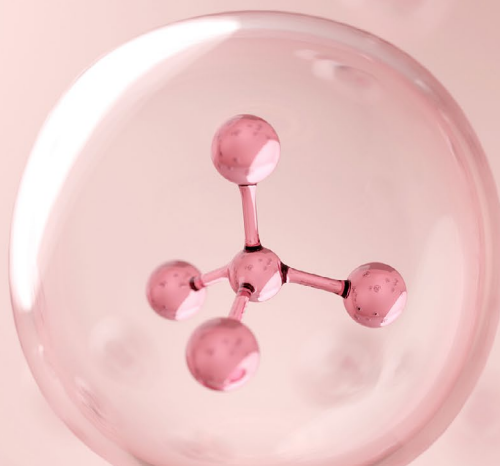

Chronic inflammation is closely linked to the phenomenon of **inflammaging** (a combination of the terms 'inflammation' and 'aging'), which accelerates the deterioration of skin cells and the loss of functionality of the dermis and epidermis. Skin cells such as **fibroblasts** and **keratinocytes** can suffer continuous damage due to persistent inflammation, leading to premature skin aging.

Furthermore, **cytokines**, which are small proteins produced during inflammatory processes, play a crucial role in promoting skin damage by stimulating the **degradation of collagen** and elastin, and accelerating the formation of wrinkles and the loss of firmness.

Finally, inflammation increases the glycation of proteins, a process that structurally alters collagen and makes the skin more prone to wrinkle formation.

### Stages of aging

# SKIN LONGEVITY

**.350 X-AGE SUPREME, formulated for advanced stages of aging** (GRADE III and IV), aligns with the Skin Longevity philosophy, which aims to preserve the health and beauty of the skin over time, counteracting aging and external damage. It adopts an integrated approach based on prevention and cellular regeneration to keep the skin healthy, radiant, and resilient.

Cosmetically, this means formulations that **strengthen the biological functions of the skin**, stimulate the production of collagen and elastin, improve the skin barrier, and optimize repair processes.

Skin Longevity promotes solutions that reduce oxidative and inflammatory stress, favouring antioxidant ingredients, peptides, and essential fatty acids to enhance the skin's ability to self-repair and adapt to daily stresses. It is a holistic vision, focusing not only on immediate aesthetic improvement but also on the preservation of skin youthfulness and vitality in the long term.

**According to the Glogau classification, patients are grouped into four categories depending on the presence and severity of wrinkles on the skin**

## GRADE I MILD

SCANT WRINKLES,  
ABSENCE OF KERATOSIS

28-35 years old

## GRADE II INTERMEDIATE

FIRST WRINKLES, SOME  
SKIN SCARS; YELLOWISH  
COMPLEXION WITH  
EARLY ACTINIC  
KERATOSIS

35-50 years old

## GRADE III ADVANCED

DEEP WRINKLES IN THE  
EXPRESSION AREAS. SUN  
DAMAGE AND SEVERE  
DEHYDRATION. THIN,  
SAGGING SKIN WITH AN  
IRREGULAR COMPLEXION

50-65 years old

## GRADE IV SEVERE

DEEP WRINKLES,  
AGE SPOTS. LOSS  
OF ELASTICITY AND  
SKIN TONE. SEVERE  
DEHYDRATION AND  
NOTICEABLE SUN  
DAMAGE

60-75 years old

# TECHNOLOGICAL INNOVATION AND ACTIVE INGREDIENTS

## ECTOCOMPLEX-3

A powerful anti-aging technology that combines 3 key ingredients, each with specific and complementary properties to counteract the signs of aging and improve long-term skin health. The combination of these molecules works in synergy on skin regeneration, antioxidant protection, and skin firmness.

**ECTOINE:** An amino acid derivative belonging to the group of extremolytes, small protective molecules that protect plants and extremophilic microorganisms from the lethal and extreme conditions of their habitats such as salty lakes, hot springs, Arctic ice, deep waters, or deserts.

Ectoine protects the skin from extrinsic and intrinsic factors of skin aging and cellular damage such as pollution particles, sunlight, temperature, and chemical stress. Furthermore, it improves cellular functions, which are responsible for the health and beauty of the skin. This global protection and reparative activity lead to visible long-term preservation and restoration and an improvement in skin health.

Ectoine is therefore a multitasking raw material with remarkable cosmetic abilities:

- **ANTIOXIDANT PROPERTIES.** It protects the skin from damage caused by UVA and UVB radiation, preserving cells and slowing down premature aging.
- **ANTI-INFLAMMATORY ACTION.** It modulates the inflammatory response of skin cells, reducing oxidative stress and inflammation, promoting skin recovery.
- **HYDRATION AND ELASTICITY.** It forms a hydrosshield that prevents cellular dehydration, maintaining hydration and improving skin elasticity.
- **PROTECTION FROM DEHYDRATION.** It retains water in skin cells, preventing dryness even in adverse environments.
- **REDUCTION OF WRINKLES.** It improves the elasticity and firmness of the skin, visibly reducing wrinkles and fine lines.
- **SOOTHING.** It alleviates irritated skin, reducing redness and inflammation.
- **PROTECTION FROM BLUE LIGHT.** It defends the skin from oxidative damage caused by blue light radiation, acting as a protective barrier.

## Stress factors

**STABILIZED VITAMIN C (Ascorbyl Glucoside):** A powerful antioxidant that inhibits the enzyme tyrosinase, evening out the skin tone and reducing spots caused by photoaging. It stimulates the production of collagen and hyaluronic acid, reducing wrinkles and improving the appearance of the skin, making it smoother and firmer.

**DMAE (Dimethylaminoethanol):** Provides an immediate lifting effect, smoothing wrinkles and counteracting skin sagging. With its antioxidant properties, DMAE enhances skin hydration and elasticity, improving the overall effectiveness of the EctoComplex-3 technology.

# OTHER ACTIVE INGREDIENTS

Arosha's anti-aging formulations combine science and innovation, blending natural and biotechnological ingredients for visible and lasting results. The X-AGE SUPREME line integrates a synergy of molecules with proven anti-wrinkle, lifting, plumping, brightening, and soothing properties, amplified by Ectocomplex-3 technology, which enhances their effectiveness and optimizes results.

## ANTI-WRINKLE AND LIFTING PEPTIDES

Palmitoyl Tetrapeptide-7 and Palmitoyl Tripeptide-1 regulate cellular activities, stimulate the regeneration of the extracellular matrix, and improve tone and elasticity. Palmitoyl Tripeptide-38, one of the most powerful plumping agents, enhances the production of collagen, fibronectin, and hyaluronic acid, promoting firmer and smoother skin.

## ACMELLA OLERACEA EXTRACT

Used as a natural alternative to Botox, it limits facial muscle contractions and delays the appearance of the first signs of aging due to its relaxing effect on the muscles. It significantly reduces wrinkles, smooths and plumps the skin, eliminating expression lines.

## ORGANIC SILICON

Silicon is essential for collagen synthesis and the activation of hydroxylation enzymes, which are crucial in the formation of the collagen network, helping to improve the strength and elasticity of the skin. Additionally, silicon has been associated with the production of glycosaminoglycans, such as hyaluronic acid, which support skin hydration and structure.

## PHYTOSYMPRO- TEOGLYCANS

Powerful skin regenerators: by stimulating collagen synthesis, they improve the firmness and smoothness of the skin, reducing the depth of wrinkles. Additionally, they enhance hydration and the functionality of the skin barrier, promoting more elastic and smooth skin.

## HYALURONIC ACID

Low, intermediate, and high molecular weight it deeply hydrates, with a soothing and anti-inflammatory action, keeping the skin firm and plumped.

## CERAMIDES

Strengthen the skin barrier and improve the skin's resistance, preventing water loss.

## SUPEROXYDE DISMUTASE

A powerful antioxidant capable of neutralizing free radicals, protecting the skin from oxidative damage. It helps reduce the signs of aging, improving skin radiance and firmness.

## COENZYME Q10

It is a powerful antioxidant that fights free radicals, preventing premature skin aging. It promotes the production of collagen and elastin, improving elasticity and reducing wrinkles and fine lines. Additionally, it stimulates the production of cellular energy, supporting skin renewal and vitality.

## SOY ISOFLAVONES

Powerful antioxidants, they promote collagen synthesis, improving skin elasticity and firmness. Additionally, they have moisturizing and balancing properties, helping to keep the skin soft and smooth.

## ALPHA- BISABOLOL AND EXTRACTS OF ALOE VERA, GINKGO BILOBA, LICORICE, AND HAMAMELIS

They provide soothing and protective actions, with natural anti-inflammatory effects that calm and regenerate the skin.

# PROFESSIONAL TREATMENT

ATTACK / FACE

## .351 X-AGE SUPREME ELISIR

### LOCALIZED FLUID

Enriched with ingredients capable of stimulating collagen synthesis, minimizing wrinkles and expression lines, and creating a lifting effect.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Palmitoyl Tetrapeptide-7, Palmitoyl Tripeptide-1, Phytosymproteoglycans, Hyaluronic Acid, Acmeella Oleracea Extract.

Nr. 4 - Single-dose vials 5ml

## .352 X-AGE SUPREME CREAM MASK

### ANTI-AGING RESTRUCTURING MASK

With deep moisturizing and nourishing action, it improves skin roughness and thickness.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Hyaluronic Acid, Ceramides, Marine Collagen, Vitamin E, Avocado, Sweet Almond and Sunflower Oils.

Nr. 4 single-dose sachet 8ml

## .353 X-AGE SUPREME BC MASK (Available only with Premium Version)

### 100% PURE BIOCELLULOSE ANTI-AGE MASK

It combats the signs of aging and counteracts the formation of advanced glycation end products.

#### ACTIVE INGREDIENTS

Ectocomplex-3 Technology, Ergothioneine, Acetyl Hexapeptide-8, Dipeptide Diaminobutyryl Benzylamide Diacetate, Bacillus Ferment, Hyaluronic Acid.

Nr. 4 single-dose sachet 20ml

## COMPLETE THE TREATMENT

## .354 X-AGE SUPREME CREAM\*

### ANTI-AGING RESTRUCTURING CREAM

Intensive treatment that helps restore the optimal quality and properties of the skin.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Palmitoyl Tetrapeptide-7, Palmitoyl Tripeptide-1, Acmeella Oleracea Extract, Avocado Oil, Moringa Butter, and Shea Butter.

Nr. 1 - Airless 100 ml

\* Not included into the kit

### .713 X-AGE SUPREME MASK

#### 100% PURE BIOCELLULOSE ANTI-AGE MASK

It combats the signs of aging and counteracts the formation of advanced glycation products.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology Ergothioneine, Acetyl Hexapeptide-8, Dipeptide Diaminobutyryl Benzylamide Diacetate, Bacillus Ferment, Hyaluronic Acid.

**Nr. 4 single-dose sachet 20ml**

### .714 X-AGE SUPREME RICH SERUM

#### ANTI-AGING SERUM | DRY SKIN

It stimulates collagen synthesis and strengthens the skin's structure.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Phytoproteoglycans, High Molecular Weight Hyaluronic Acid (HMW HA), Medium Molecular Weight Hyaluronic Acid (MMW HA), Low Molecular Weight Hyaluronic Acid (LMW HA), Organic Silicon, Ginkgo Biloba Extract, Jojoba Oil, Moringa Butter, Vitamin E.

**Nr. 1 - Airless 30 ml**

### .715 X-AGE SUPREME RICH CREAM

#### RENEWING CREAM | DRY SKIN

It strengthens the extracellular matrix, improving firmness and smoothness.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Palmitoyl Tripeptide-38, Acmeella Oleracea Extract, Low Molecular Weight Hyaluronic Acid (LMW HA), Collagen, Avocado Oil, Wheat Germ Oil, Moringa Butter, Vitamin E.

**Nr. 1 - Airless 50 ml**

### .716 X-AGE SUPREME RICH CREAM NIGHT

#### ANTI-AGING NIGHT CREAM | DRY SKIN

Calms the skin and reduces redness, combating the signs of aging.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Palmitoyl Tripeptide-38, Acmeella Oleracea Extract, Low Molecular Weight Hyaluronic Acid (LMW HA), Collagen, Soy Isoflavones, Alpha-Bisabolol, Aloe Vera Extract, Avocado Oil, Wheat Germ Oil, Moringa Butter, Vitamin E.

**Nr. 1 - Airless 50 ml**

### .717 X-AGE SUPREME LIGHT SERUM

#### ANTI-AGING SERUM | MIXED AND OILY SKIN

Boosts collagen and strengthens the skin structure, ensuring deep hydration.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Plant Squalane, Phytoproteoglycans, Ceramides, Low Molecular Weight Hyaluronic Acid (LMW HA), Organic Silicon, Ginkgo Biloba Extract.

**Nr. 1 - Airless 30 ml**

### .718 X-AGE SUPREME LIGHT CREAM

#### RENEWING CREAM | MIXED AND OILY SKIN

Counteracts the signs of aging and restores the skin's balance, improving firmness and smoothness.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Palmitoyl Tripeptide-38, Acmeella Oleracea Extract, Low Molecular Weight Hyaluronic Acid (LMW HA), Collagen, Soy Isoflavones, Alpha-Bisabolol, Aloe Vera Extract, Avocado Oil, Wheat Germ Oil, Moringa Butter, Vitamin E.

**Nr. 1 - Airless 50 ml**

### .719 X-AGE SUPREME LIGHT CREAM NIGHT

#### ANTI-AGING NIGHT CREAM | MIXED AND OILY SKIN

Calms the skin and reduces redness, combating the signs of aging.

#### ACTIVE INGREDIENTS

EctoComplex-3 Technology, Palmitoyl Tetrapeptide-7, Palmitoyl Tripeptide-1, Soy Isoflavones, Superoxide Dismutase, Coenzyme Q10, Alpha-Bisabolol, Aloe Vera Extract, Licorice Extract, Witch Hazel Extract, Avocado Oil, Wheat Germ Oil, Moringa Butter, Vitamin E.

**Nr. 1 - Airless 50 ml**

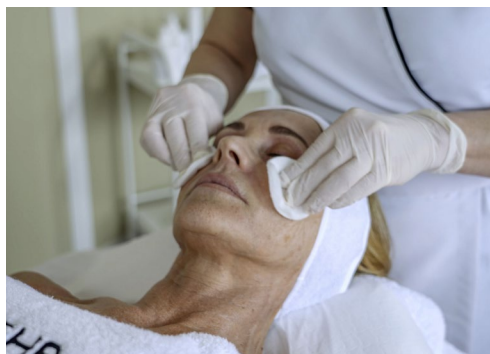

# PROFESSIONAL TREATMENT

## STEP 1

CLEANSING AND  
PREPARATION

.153 CLEANSING CREAM  
+ .154 TONIC LOTION  
+ .155 PURE CLEANSE  
PRIMER

## STEP 2

RENOVATE

.351 X-AGE  
SUPREME ELISIR

## STEP 3

REGENERATE

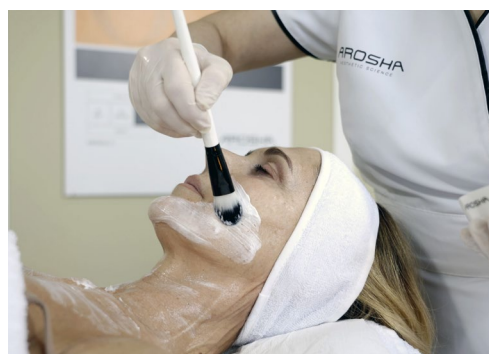

.352 X-AGE  
SUPREME CREAM MASK

## ONLY FOR PREMIUM VERSION

SUPREME CREAM

# BEFORE AND AFTER

# KEY STRENGTHS

## SKIN LONGEVITY

It adopts an integrated approach based on prevention and cellular regeneration to keep the skin healthy, radiant, and resilient.

## ECTOCOMPLEX-3 TECHNOLOGY

Three key ingredients, each with specific properties that work together to counteract the signs of aging and improve the long-term health of the skin.

## EXTREMOPHILE MOLECULES

They protect the skin from extrinsic and intrinsic factors of skin aging and cellular damage, such as pollution particles, sunlight, temperature, and chemical stress.

## HOME LINE WITH DIVERSIFIED TEXTURES

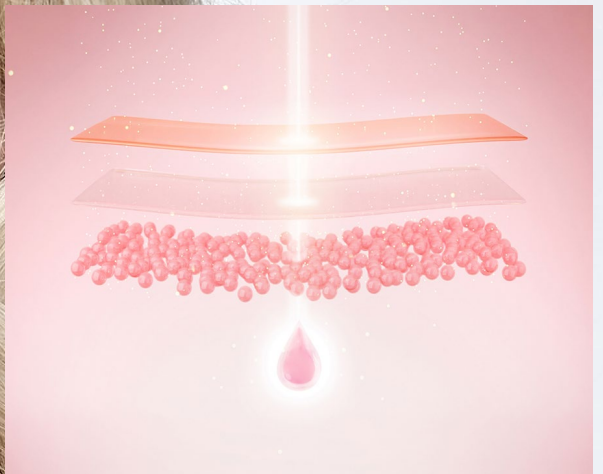

Serums and creams with varying textures, tailored to meet the specific needs of different skin types.

## COMBINATION WITH DEVICE

Treatment that can be used in combination with dermax | Arosha for even more noticeable and long-lasting results.

## dermax | Arosha

A professional device that combines resistive radiofrequency technology and microcurrents to maximize results and extend the effectiveness of treatments over time.
