

.351 X-AGE SUPREME ELISIR

Localized fluid

Localized fluid developed with the new EctoComplex-3 dermo-cosmetic technology with a combined action on skin regeneration, antioxidant protection and improved skin tone. Also enriched with high-performance ingredients capable of stimulating collagen synthesis, minimizing wrinkles and expression lines and creating a lifting effect, while offering a boost of hydration and tone.

PROBLEMS

- Degeneration of skin structures
- Wrinkles and skin folds
- Skin atrophy and general laxity

EFFECTS

- Restructuring and repair
- Improvement in roughness
- Firm and toned skin
- Lifting
- Redefined facial contour

Vial 5 ml

Cod. Art.: FAF300015

Product included in the kit and not sold separately

MAIN ACTIVE INGREDIENTS

ECTOCOMPLEX-3 TECHNOLOGY

It is a powerful anti-aging technology that combines three key ingredients, each with specific and complementary properties to combat the signs of aging and improve the long-term health of the skin. The combination of these molecules works in synergy on skin regeneration, antioxidant protection, and skin tonicity. The first key ingredient, Ectoine, is an amino acid derivative belonging to the group of extremolytes, small protective molecules that shield plants and extremophilic microorganisms from the lethal and extreme conditions of their habitats, such as salty lakes, hot springs, Arctic ice, deep waters, or deserts. Ectoine offers global and potent protection. It protects the skin from

extrinsic and intrinsic aging factors and cellular damage, such as pollution particles, sunlight (including IR-A and visible light), temperature, and chemical stress. Additionally, it enhances cellular functions responsible for skin health and beauty. This global protection and reparative activity lead to visible and long-term preservation and restoration, improving the skin's health.

The second ingredient, stabilized Vitamin C in the form of Ascorbyl Glucoside, is a powerful antioxidant that inhibits the enzyme tyrosinase, evening out skin tone and reducing photo-aging spots. It stimulates collagen and hyaluronic acid production, reducing wrinkles and improving the appearance of the skin, making it smoother and firmer.

Finally, the third component, DMAE (Dimethylaminoethanol), provides an immediate lifting effect, smoothing wrinkles and combating skin laxity. With its antioxidant properties, DMAE enhances skin hydration and elasticity, boosting the overall effectiveness of the EctoComplex-3 technology.

MATRIXYL® 3000

It is an active ingredient that combines two peptides, PALMITOYL TETRAPEPTIDE-7 and PALMITOYL TRIPEPTIDE-1, capable of regulating cellular activities by interacting with their specific receptors. This complex activates the genes involved in the extracellular matrix rejuvenation process, helping to reduce the fragmentation of papillary dermal fibers and significantly facilitating their recon

INGREDIENTS: AQUA (WATER), GLYCERIN, DIMETHYLAMINOETHANOL TARTRATE, PENTYLENE GLYCOL, SODIUM HYDROXIDE, PROPANEDIOL, SODIUM HYALURONATE, BUTYLENE GLYCOL, ACMEILLA OLERACEA EXTRACT, GLYCINE SOJA (SOYBEAN) SEED EXTRACT, HYDROXYETHYLCELLULOSE, PALMITOYL TETRAPEPTIDE-7, PALMITOYL TRIPEPTIDE-1, CALCIUM CHLORIDE, DISODIUM EDTA, PHENOXYETHANOL, CARBOMER, POLYSORBATE 20, POTASSIUM SORBATE.

struction. It stimulates skin recovery processes, helping to smooth wrinkles and improve skin tone and elasticity.

GATULINE® EXPRESSION

A plant-derived active ingredient from the "Acmella Oleracea" plant. Used as a natural alternative to botox, it limits facial muscle contractions and delays the appearance of the first signs of aging due to its relaxing effect on the muscles. It significantly reduces wrinkles, smooths and plumps the skin, eliminating expression lines.

LOW MOLECULAR WEIGHT HYALURONIC ACID (LMW HA)

With a molecular weight of 10-20 kDa, this hyaluronic acid penetrates the skin and interacts with the cells and extracellular matrix, stimulating collagen production, improving cellular tissues, and providing deep hydration. Due to its high moisturizing power, it softens wrinkles and restores the skin's barrier function.

PHYTOPROTEOGLYCANS

A blend of proteins, glycoproteins, and polysaccharides isolated from organic

soy. It activates cellular repair processes, helping to maintain cellular integrity and energy after UV irradiation. It stimulates the skin's natural defense system and acts as a biological protector against UV rays. Additionally, it is a powerful skin regenerating agent due to the stimulation of collagen synthesis, improving skin firmness and smoothness, and reducing the depth of wrinkles.

INSTRUCTIONS

See the usage instructions for the kit. For external use only. Avoid contact with eyes, mucous membranes, and broken skin. Rinse immediately in case of irritation and discontinue use of the product. PROFESSIONAL USE.

INGREDIENTS: AQUA (WATER), GLYCERIN, DIMETHYLAMINOETHANOL TARTRATE, PENTYLENE GLYCOL, SODIUM HYDROXIDE, PROPANEDIOL, SODIUM HYALURONATE, BUTYLENE GLYCOL, ACMELLA OLERACEA EXTRACT, GLYCINE SOJA (SOYBEAN) SEED EXTRACT, HYDROXYETHYLCELLULOSE, PALMITOYL TETRAPEPTIDE-7, PALMITOYL TRIPEPTIDE-1, CALCIUM CHLORIDE, DISODIUM EDTA, PHENOXYETHANOL, CARBOMER, POLYSORBATE 20, POTASSIUM SORBATE.
