

715. X-AGE SUPREME RICH CREAM

Renewing cream | dry skin

Rich emulsion with EctoComplex-3 technology, which acts in synergy on skin regeneration, antioxidant protection and improved tone. A complete day treatment to combat the signs of aging and restore the physiological balance of the skin. Hyaluronic Acid and Collagen, together with powerful antioxidants and targeted active ingredients, stimulate fibroblasts and strengthen the extracellular matrix, improving firmness and smoothness. The nourishing texture, enriched with emollient vegetable oils and Moringa butter, is perfect for dry skin, offering deep hydration and long-lasting protection.

PROBLEMS

- Degeneration of skin structures
- Wrinkles and skin folds
- Loss of firmness and general laxity
- Dull and lifeless skin
- Asphyxiated skin
- Acute dryness
- Photoaging

EFFECTS

- Renewal of the outer layers of the epidermis
- Restructuring and repairing
- Improvement in roughness
- Firm and toned skin
- Radiant skin and even complexion
- Deep hydration and nourishment

Airless 50 ml

Cod. Art.: ARO205633

MAIN ACTIVE INGREDIENTS

ECTOCOMPLEX-3 TECHNOLOGY

It is a powerful anti-aging technology that combines three key ingredients, each with specific and complementary properties to combat the signs of aging and improve the long-term health of the skin. The combination of these molecules works in synergy on skin regeneration, antioxidant protection, and skin tonicity. The first key ingredient, Ectoine, is an amino acid derivative belonging to the group of extremolytes, small protective molecules that shield plants and extremophilic microorganisms from the lethal and extreme conditions of their habitats, such as salty lakes, hot springs, Arctic ice, deep waters, or de-

serts. Ectoine offers global and potent protection. It protects the skin from extrinsic and intrinsic aging factors and cellular damage, such as pollution particles, sunlight (including IR-A and visible light), temperature, and chemical stress. Additionally, it enhances cellular functions responsible for skin health and beauty. This global protection and reparative activity lead to visible and long-term preservation and restoration, improving the skin's health.

The second ingredient, stabilized Vitamin C in the form of Ascorbyl Glucoside, is a powerful antioxidant that inhibits the enzyme tyrosinase, evening out skin tone and reducing photo-aging spots.

It stimulates collagen and hyaluronic acid production, reducing wrinkles and improving the appearance of the skin, making it smoother and firmer.

Finally, the third component, DMAE (Dimethylaminoethanol), provides an immediate lifting effect, smoothing wrinkles and combating skin laxity. With its antioxidant properties, DMAE enhances skin hydration and elasticity, boosting the overall effectiveness of the EctoComplex-3 technology.

PALMITOYL TRIPEPTIDE-38

One of the most powerful plumping peptides, thanks to its strong ability to stimulate fibroblasts to produce key components of the skin's matrix: collagen,

INGREDIENTS: AQUA (WATER), COCO-CAPRYLATE/CAPRATE, DIMETHICONE, PENTYLENE GLYCOL, PERSEA GRATISSIMA (AVOCADO) OIL, MORINGA OIL/HYDROGENATED MORINGA OIL ESTERS, GLYCERYL STEARATE, CETYL ALCOHOL, TRITICUM VULGARE (WHEAT) GERM OIL, JOJOBA ESTERS, DIMETHYL ISOSORBIDE, SILICA, CAPRYLIC/CAPRIC TRIGLYCERIDE, GLYCERIN, DIMETHICONE/VINYL DIMETHICONE CROSSPOLYMER, SODIUM HYALURONATE, DIMETHYLAMINOETHANOL TARTRATE, ASCORBYL GLUCOSIDE, ACMEILLA OLERACEA EXTRACT, ECTOIN, TOCOPHERYL ACETATE, PALMITOYL TRIPEPTIDE-38, NICOTIANA BENTHAMIANA HEXAPEPTIDE-40 SH-POLYPEPTIDE-47, PEG-75 STEARATE, PEG-100 STEARATE, CETETH-20, STEARETH-20, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, CYAMOPSIS TETRAGONOLBA GUM, XANTHAN GUM, PARFUM (FRAGRANCE), HYDROXYPROPYL CYCLODEXTRIN, TOCOPHEROL, BHT, DISODIUM EDTA, TRIETHANOLAMINE, TETRAMETHYL ACETYLOCTAHYDRONAPHTHALENES, LINALOOL, HEXAMETHYLDANOPYRAN, HEXYL CINNAMAL, ALPHA-ISOMETHYL IONONE, LINALYL ACETATE, CITRUS LIMON PEEL OIL, LIMONENE.

fibronectin, and hyaluronic acid.

GATULINE® IN-TENSE

A concentrated oil extract obtained from the flowers of the *Acmella Oleracea* plant, also known as *Paracress* or "Brède mafane," a traditional spicy seasoning. This plant is valued for its high content of alkylamides, indicators of its beneficial properties. This active ingredient penetrates deeply into the skin, acting on the extracellular matrix and stimulating fibroblast activity. In this way, it supports the collagen fiber network, restoring firmness and smoothness to the face.

LOW MOLECULAR WEIGHT HYALURONIC ACID (LMW HA)

With a molecular weight of 10-20 kDa, this hyaluronic acid penetrates the skin and interacts with the cells and extracellular matrix, stimulating collagen production, improving cellular tissues, and providing deep hydration. Due to its high

moisturizing power, it softens wrinkles and restores the skin's barrier function.

COLLAGEN

Helps restore collagen lost with aging and promotes the correct weaving of fibers. Its anti-aging properties protect the skin from external factors, such as UV radiation, and improve hydration by attracting and retaining water, giving the skin a healthier and more radiant appearance.

MORINGA BUTTER

A plant-based emollient with a lipid structure very similar to that of the skin. It helps improve the hydrolipidic barrier without leaving a greasy feeling. It can enhance the skin's barrier repair processes and hydration, without an occlusive effect.

AVOCADO OIL

A precious plant oil with nourishing and regenerating properties, making it especially suitable for dry, mature, devital-

ized, or sensitized skin. On more fragile skin, it has a softening effect, providing protection against environmental aggressors while imparting elasticity and softness. Its notable ability to normalize the hydrolipidic film also makes it a valuable ingredient for restoring the skin's natural softness and hydration.

WHEAT GERM OIL

Wheat germ oil is particularly rich in vitamins A, E, and D, Omega 3, and Omega 6, making it an excellent emollient. Its nourishing and soothing properties make it suitable for all skin types, combating aging and promoting the well-being of dry, dehydrated, and flaky skin.

VITAMIN E

It is the most powerful antioxidant for the skin, capable of repairing damage caused by free radicals, which are responsible for skin aging.

INSTRUCTIONS

Apply after the serum. Take an adequate amount of product and distribute it onto the face, neck, and décolletage, massaging until fully absorbed. For external use only. Avoid contact with eyes, mucous membranes, and broken skin. Rinse immediately in case of irritation and discontinue use of the product.
