

.354 X-AGE SUPREME CREAM

Anti-aging restructuring cream

Professional anti-aging cream formulated with the new Ecto-Complex-3 technology with a combined action on skin regeneration, antioxidant protection and improved skin tone. Enriched with precious Butters and Oils and latest-generation Peptides, for an intensive treatment that helps restore the quality and optimal properties of the skin. Thanks to its rich and velvety consistency, it melts delicately into the skin, creating a protective barrier capable of retaining moisture and offering long-lasting comfort without leaving any feeling of greasiness.

PROBLEMS

- Degeneration of skin structures
- Wrinkles and skin folds
- Loss of firmness and general laxity
- Dull and lifeless skin
- Acute dryness

EFFECTS

- Restructuring and repairing
- Improvement in roughness
- Firm and toned skin
- Radiant skin and even complexion
- Deep hydration and nourishment

Airless 100 ml

Cod. Art.: ARO205022

MAIN ACTIVE INGREDIENTS

ECTOCOMPLEX-3 TECHNOLOGY

It is a powerful anti-aging technology that combines three key ingredients, each with specific and complementary properties to combat the signs of aging and improve the long-term health of the skin. The combination of these molecules works in synergy on skin regeneration, antioxidant protection, and skin tonicity. The first key ingredient, Ectoine, is an amino acid derivative belonging to the group of extremolytes, small protective molecules that shield plants and extremophilic microorganisms from the lethal and extreme conditions of their habitats, such as salty lakes, hot springs, Arctic ice, deep waters, or deserts. Ectoine offers global and potent protection. It protects the skin from

extrinsic and intrinsic aging factors and cellular damage, such as pollution particles, sunlight (including IR-A and visible light), temperature, and chemical stress. Additionally, it enhances cellular functions responsible for skin health and beauty. This global protection and reparative activity lead to visible and long-term preservation and restoration, improving the skin's health.

The second ingredient, stabilized Vitamin C in the form of Ascorbyl Glucoside, is a powerful antioxidant that inhibits the enzyme tyrosinase, evening out skin tone and reducing photo-aging spots. It stimulates collagen and hyaluronic acid production, reducing wrinkles and improving the appearance of the skin, making it smoother and firmer.

Finally, the third component, DMAE (Dimethylaminoethanol), provides an immediate lifting effect, smoothing wrinkles and combating skin laxity. With its antioxidant properties, DMAE enhances skin hydration and elasticity, boosting the overall effectiveness of the Ecto-Complex-3 technology.

MATRIXYL® 3000

It is an active ingredient that combines two peptides, PALMITOYL TETRAPEPTIDE-7 and PALMITOYL TRIPEPTIDE-1, capable of regulating cellular activities by interacting with their specific receptors. This complex activates the genes involved in the extracellular matrix rejuvenation process, helping to reduce the fragmentation of papillary dermal fibers and significantly facilitating their recon

INGREDIENTS: AQUA (WATER), BUTYROSPERMUM PARKII (SHEA) BUTTER, PROPANEDIOL, COCO-CAPRYLATE/CAPRATE, PERSEA GRATISSIMA (AVOCADO) OIL, MORINGA OIL/HYDROGENATED MORINGA OIL ESTERS, CAPRYLIC/CAPRIC TRIGLYCERIDE, CETYL ALCOHOL, GLYCERYL STEARATE, JOJOBA ESTERS, HELIANTHUS ANNUUS (SUNFLOWER) SEED WAX, ECTOIN, ACMEILLA OLERACEA EXTRACT, DIMETHYLAMINOETHANOL TARTRATE, ASCORBYL GLUCOSIDE, PALMITOYL TETRAPEPTIDE-7, PALMITOYL TRIPEPTIDE-1, GLYCERIN, PEG-75 STEARATE, CETETH-20, STEARETH-20, ACACIA DECURRENS FLOWER WAX, POLYGLYCERIN-3, POLYSORBATE 20, ACRYLATES/C10-30 ALKYL ACRYLATE CROSSPOLYMER, BUTYLENE GLYCOL, DIMETHICONE, DIMETHICONE/VINYL DIMETHICONE CROSSPOLYMER, PARFUM (FRAGRANCE), PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, CARBOMER, TOCOPHEROL, BHT, TRIETHANOLAMINE, TETRAMETHYL ACETYLOCTAHYDRONAPHTHALENES, LINALOOL, HEXAMETHYLDINANOPYRAN, HEXYL CINNAMAL, ALPHA-ISOMETHYL IONONE, LINALYL ACETATE, CITRUS LIMON PEEL OIL, LIMONENE.

struction. It stimulates skin recovery processes, helping to smooth wrinkles and improve skin tone and elasticity.

GATULINE® IN-TENSE

A concentrated oil extract obtained from the flowers of the *Acmella Oleracea* plant, also known as *Paracress* or "Brède mafane," a traditional spicy seasoning. This plant is valued for its high content of alkylamides, indicators of its beneficial properties. This active ingredient penetrates deeply into the skin, acting on the extracellular matrix and stimulating fibroblast activity. In this way, it supports the collagen fiber network, restoring firmness and smooth-

ness to the face.

MORINGA BUTTER

A plant-based emollient with a lipid structure very similar to that of the skin. It helps improve the hydrolipidic barrier without leaving a greasy feeling. It can enhance the skin's barrier repair processes and hydration, without an occlusive effect.

SHEA BUTTER

Thanks to its rich composition of fatty acids, it has pronounced emollient and moisturizing properties. Additionally, it is very rich in antioxidants, such as vitamin E, which combats free radicals and improves blood microcirculation, and vi-

tamin A, which fights aging by rebuilding damaged cells.

AVOCADO OIL

A precious plant oil with nourishing and regenerating properties, making it especially suitable for dry, mature, devitalized, or sensitized skin. On more fragile skin, it has a softening effect, providing protection against environmental aggressors while imparting elasticity and softness. Its notable ability to normalize the hydrolipidic film also makes it a valuable ingredient for restoring the skin's natural softness and hydration.

INSTRUCTIONS

Apply a thin layer of cream to the face, neck, and décolletage, gently massaging until fully absorbed. For external use only. Avoid contact with eyes, mucous membranes, and broken skin. Rinse immediately in case of irritation and discontinue use of the product. PROFESSIONAL USE.
