

# .717 X-AGE SUPREME LIGHT SERUM

Anti-aging serum | mixed and oily skin

Innovative cream-gel serum with EctoComplex-3 technology with combined action on skin regeneration, antioxidant protection and improved skin tone. Enriched with Phytoproteoglycans and Organic Silicon to boost collagen and strengthen the skin structure. Thanks to Ceramides and Hyaluronic Acid, it guarantees deep hydration, while Vegetable Squalane and Ginkgo Biloba Extract offer antioxidant protection and a luminous complexion. The fresh and light texture is perfect for the needs of combination and oily skin.

## PROBLEMS

- Degeneration of skin structures
- Wrinkles and skin folds
- Skin atrophy and general laxity

## EFFECTS

- Renewal of the outer layers of the epidermis
- Improvement in roughness
- Firm and toned skin
- Lifting effect
- Redefinition of facial contours
- High hydration

Airless 30 ml

Cod. Art.: AR0205634

## MAIN ACTIVE INGREDIENTS

### ECTOCOMPLEX-3 TECHNOLOGY

It is a powerful anti-aging technology that combines three key ingredients, each with specific and complementary properties to combat the signs of aging and improve the long-term health of the skin. The combination of these molecules works in synergy on skin regeneration, antioxidant protection, and skin tonicity. The first key ingredient, Ectoine, is an amino acid derivative belonging to the group of extremolytes, small protective molecules that shield plants and extremophilic microorganisms from the lethal and extreme conditions of their habitats, such as salty lakes, hot springs, Arctic ice, deep waters, or de-

serts. Ectoine offers global and potent protection. It protects the skin from extrinsic and intrinsic aging factors and cellular damage, such as pollution particles, sunlight (including IR-A and visible light), temperature, and chemical stress. Additionally, it enhances cellular functions responsible for skin health and beauty. This global protection and reparative activity lead to visible and long-term preservation and restoration, improving the skin's health.

The second ingredient, stabilized Vitamin C in the form of Ascorbyl Glucoside, is a powerful antioxidant that inhibits the enzyme tyrosinase, evening out skin tone and reducing photo-aging spots.

It stimulates collagen and hyaluronic acid production, reducing wrinkles and improving the appearance of the skin, making it smoother and firmer.

Finally, the third component, DMAE (Dimethylaminoethanol), provides an immediate lifting effect, smoothing wrinkles and combating skin laxity. With its antioxidant properties, DMAE enhances skin hydration and elasticity, boosting the overall effectiveness of the EctoComplex-3 technology.

### VEGETAL SQUALANE

A valuable unsaponifiable fraction obtained biotechnologically from sugarcane, it has important anti-aging and anti-wrinkle properties. In vivo tests

INGREDIENTS: AQUA (WATER), COCO-CAPRYLATE/CAPRATE, SQUALENE, PROPANEDIOL, METHYLSILANOL HYDROXYPROLINE ASPARTATE, ISOSTEARYL ALCOHOL, BUTYLENE GLYCOL, DIMETHICONE, DIMETHYLAMINOETHANOL TARTRATE, GLYCERIN, TRIETHANOLAMINE, SODIUM HYALURONATE, ECTOIN, ASCORBYL GLUCOSIDE, GLYCINE SOJA (SOYBEAN) SEED EXTRACT, GINKGO BILOBA LEAF EXTRACT, PHOSPHOLIPIDS, SPHINGOLIPIDS, PENTYLENE GLYCOL, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, ACRYLATES/C10-30 ALKYL ACRYLATE CROSSPOLYMER, CYAMOPSIS TETRAGONOLOBA GUM, XANTHAN GUM, PARFUM (FRAGRANCE), ETHYLCELLULOSE, CALCIUM CHLORIDE, SODIUM BENZOATE, POTASSIUM SORBATE, GLUCONOLACTONE, SODIUM CITRATE, p-ANISIC ACID, TOCOPHEROL, CALCIUM GLUCONATE, COUMARIN, LIMONENE, TETRAMETHYL ACETYLOCTAHYDRONAPHTHALENES, CITRUS AURANTIUM PEEL OIL.

demonstrate its ability to make the skin more elastic and firm.

## PHYTOPROTEOGLYCANS

A blend of proteins, glycoproteins, and polysaccharides isolated from organic soy. It activates cellular repair processes, helping to maintain cellular integrity and energy after UV irradiation. It stimulates the skin's natural defense system and acts as a biological protector against UV rays. Additionally, it is a powerful skin regenerating agent due to the stimulation of collagen synthesis, improving skin firmness and smoothness, and reducing the depth of wrinkles.

## CERAMIDE COMPLEX CLR™

Ceramides are essential structural components of the lipid membrane, crucial for maintaining the integrity and protective function of the skin barrier. This ac-

tive ingredient, composed of a complex of ceramides naturally present in the skin, helps restore the lipids in the membrane, improving the texture, softness, and elasticity of the skin. As a result, it enhances the skin's ability to retain hydration, protecting it from dryness and irritation while promoting a healthier and smoother appearance.

## LOW MOLECULAR WEIGHT HYALURONIC ACID (LMW HA)

With a molecular weight of 10-20 kDa, this hyaluronic acid penetrates the skin and interacts with the cells and extracellular matrix, stimulating collagen production, improving cellular tissues, and providing deep hydration. Due to its high moisturizing power, it softens wrinkles and restores the skin's barrier function.

## ORGANIC SILICON

Silicon is essential for collagen synthesis and the activation of hydroxylation enzymes, which are crucial in the formation of the collagen network, helping to improve the strength and elasticity of the skin. Additionally, silicon has been linked to the production of glycosaminoglycans, such as hyaluronic acid, which support skin hydration and structure.

## GINKGO BILOBA EXTRACT

Rich in ginkgolides and flavonoids, it has radical-scavenging, antioxidant, and sebum-regulating properties. It is also vasoprotective, toning, anticellulite, and dermopurifying. Additionally, it protects the skin from external aggressors, pollution, and oxidative damage, with anti-aging effects.

## INSTRUCTIONS

Use morning and evening after cleansing the skin and before applying the cream. Take an adequate amount of product and apply it to the face, neck, and décolletage, massaging until fully absorbed. For external use only. Avoid contact with eyes, mucous membranes, and broken skin. Rinse immediately in case of irritation and discontinue use of the product.
